

Marsworth Hall

Parish Report

The Hall has for the last year been kept in good condition, all lights inside and out have been changed to LED, the exterior lights now are timed to turn off after a set time. A new Commercial cooker has been installed.

The main concern for the Committee in this coming year is to replace the Main Hall heating system, the existing heaters are no longer repairable.

The Bonfire night was a success, bringing in funds for the Hall, it was just a bit too muddy and a few cars got stuck.
